

Delivering Quality Care to LGBT Residents

This workshop will present four curriculum modules for administrators, directors of nursing, and staff developers in nursing homes and assisted living facilities to use to deliver quality care and create a culture of inclusion for LGBT residents. A train-the-trainer model will be used, and participants will receive the tools they need to deliver curricular modules on best practices for providing care for LGBT residents for use to train staff. The workshop is sponsored by SAGE-RI, partnering with, Leading Age, RIALA and RIHCA, and supported by an Equity Action.
