

Rhode Island Health Care Association and Celtic Consulting presents: PDPM Wrap Up Workshop

Training Description

With the new Patient Driven Payment Model (PDPM) here, 2019 has been a blockbuster year for the Long-Term Care Industry. With so much riding on your comprehension of these major fundamentals, it is imperative that facility leadership understand how they are being evaluated based on the payment system's nuances, and what efforts can be implemented now to safeguard their success in the future.

This session is geared toward preparing the IDT with the competencies that will be needed to be successful under PDPM. The PDPM system is new to the entire country, and SNF IDT's will be required to lead their staff under the new system which will have different opportunities and reporting requirements. This session will provide the leadership team with concepts and strategies for education, communication and collaboration.

Training Objectives

- 1. Brief review of the new Patient Driven Payment Model (PDPM), including updates from the recent release of CMS FY 2020 Final Rule.
2. Review of the most recent updates including: Case Mix Weights, Base Rates, Cognition Interviews, IPA Use.
3. Practices to prepare your staff for PDPM implementation, and how the IDT needs to shift focus to be successful under PDPM.
4. PDPM Prep concepts to begin implementing now.
